

HILTON HOUSE

Designed by a modern master (Richard Seifert) to house the drama and lighting department of Manchester Polytechnic, it was always destined for great things. But at some point we forgot that. We let it go quiet.

The new Hilton House is here to honour the building's legacy and celebrate our collective past.

A collection of histories brought together and brought to life.

A building reimagined with integrity.

Introduction
History
Vision

Built in the late 60's, Hilton House has remained largely untouched since. It's been home to accountants, bars, healthcare businesses, and up until Jan 2019, a large part of the building lay derelict.

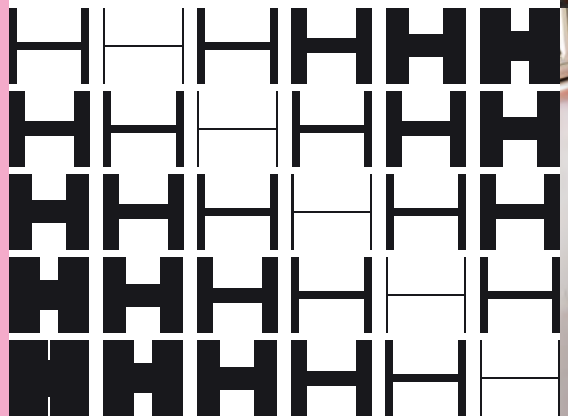

Hilton House is an integral building within the Northern Quarter. Over time it has been neglected, and it's primary use forgotten.

The facade has remained untouched by the previous owners, but the owners of culture in NQ have never left it alone. It is always adorned with a wealth of artwork and gig posters.

We have to make sure that we celebrate the buildings heritage, both historically and more recently, culturally and develop it, in every sense, with integrity.

In 2019, Hilton House will become new, inspiring, contemporary office space providing the end user with high quality, cost effective, flexible space to suit the needs of a modern day business, with the on-site facilities to help the business grow and flourish.

Our office spaces are perfect for all, from new businesses, SME's to large established companies, from 1 to 100+ staff. The concierge will be on hand to take calls and greet visitors.

24 hour CCTV monitoring means our tenants can relax in the knowledge that their business is protected around the clock.

Access is available 24/7, as each tenant is provided with an electronic key fob personally coded to their suite.

The whole workspace also benefits from 10GB broadband — the fastest in the city.

The Hilton House of the future allows businesses of all walks an opportunity to become part of the story of this local community.

A space to exist and create your own chapter within the ongoing narrative of the Northern Quarter.

Hilton House offers a host of benefits to deliver a truly creative space for all of it's tenants.

These days the Northern Quarter is Manchester's creative district. The area is home to a variety of independent shops, restaurants and art galleries offering art from local and international artists.

Often described as a village within the city, the neighbourhood is one of the most vibrant and is considered by many to be the most hip neighbourhood in the city centre, resulting in it being one of the city's most popular locations for multinational brands and creative businesses to locate to.

The Government announced in early 2015 that the Northern Quarter would be designated a "Tech Hub", given the popularity of the area for digital and IT start-up companies. This has firmly established the Northern Quarter as one of the favourite locations in Europe for digital and IT companies to locate to, driving a strong demand for high quality office accommodation in the neighbourhood to house the growing population of talented young professionals high growth businesses moving to Manchester.

A place of true creativity

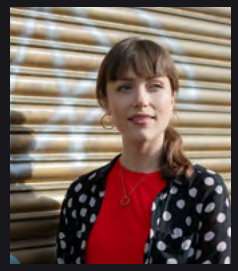

In the heart of the Northern Quarter, Hilton House is surrounded by some of the most creative businesses in the city. It's this proximity to these independent businesses that creates the unique energy of the city.

Mix that energy, with the host of transport links within walking distance and you have a truly connected cultural hub.

Everybody pictured here works within each respective business.

HILTON OPEN HOUSE GALLERY

As an adopted street art landmark, Hilton House is to continue it's role within the artistic community. Introducing OpenHouse Gallery — a community space to the rear of the building that will have a rotating exhibition of artworks.

Located along the buildings rear entrance, OpenHouse Gallery will have an ongoing plan of exhibitions to engage with the local community as the building always has.

In the current landscape, too many buildings of note are being lost by inward development. Hilton House is different.

Developed by a group of local creative businesses, Hilton House is an example of restoration from within with integrity.

Developer

CERT PROPERTY

Operating for over 12 years and based in Ancoats, CERT are delivering some of Manchester's most exciting developments.

Focused on delivering the highest quality living, working and recreational spaces that add value to the neighbourhoods in which they are located.

Interior

SHELIA BIRD GROUP

The Sheila Bird Group is an interior design studio that breathe life and energy into work spaces to encourage people to talk, have fun and most importantly, love what they do.

Every space Sheila Bird creates challenges the office norm, makes people think differently and creates spaces that business and its teams can be proud of.
